

European Family Conference 2018

Holidays by The Cariazo Family

Planning far advance is ideal. As soon as Eurostar tickets become available, book it. As there's limited wheelchair spaces per journey.

In our case, our friends went 1 day ahead to receive bed/hoist early on the day of our arrival. They organised it with hotel staff to make sure the hotel bed got out of the room to accomodate the adjustable bed. And to receive oxygen delivery.

Disney clinic has lots of stocks like suction bags , yankaur suction. So don't panic too much if you forget one or two things

We asked nippy junior (our ventilation supplier/manufacturer) to provide us with extra batteries. They send us 2 new external battery in case we got stuck on the train with delays.

We took portable nebs to carry with u all day. Elijah used the disney clinic at least 2 a day for resting and recharging batteries and changing nappy(and if u notice on the photo, daddy is resting too 😊)
